

Licensing terms

THIS AGREEMENT COVERS ALL USE OF FONTS FROM ALBERTO MOLINA (“AM TYPE”). BY USING, ACCESSING, INSTALLING, OR PURCHASING A LICENSE FOR THE FONTS, YOU AGREED TO ALL OF THE TERMS OF THIS AGREEMENT.

The company size of the client is the metric you need to know in order to license fonts.

You don't have to gather any information about their number of computers, web traffic, app downloads...

The License can allow one third party like a graphic designer to use the fonts on their behalf. It is the ultimate client (and not the design studio) who holds the license. That also means that if a graphic designer needs the typefaces to work for that client, the client's license can be used.

If the number of employees the Licensee has increases, the license needs to be upgraded. Please get in touch with AM Type.

DESKTOP LICENSE

With a desktop license you can install the fonts on all of your devices and use them to create documents, objects...

LOGO LICENSE

With a logo license you can use the fonts to create a logo or wordmark for one brand. If you want to do it for another brand you'll need to buy another license.

WEB LICENSE

There's no limit to the amount of web traffic, but if you want to use the fonts on another domain you'll have to buy another separate web license. You can only use the WOFF and WOFF2 files that we gave you.

APP/GAME LICENSE

With an app/game license, you can embed the fonts into one app (which could be a mobile app, web app, digital point of sale system, etc.) or game. If you want to use them for another app or game you'll need to buy another separate app/game license.

TRIAL FONTS

With a trial fonts license, you can use the fonts for the purpose of deciding whether you want to purchase a license for them. You can also use them on your non-commercial, non-monetized social media posts as long as you mention the fonts and tag AM Type. Other than that, you can't publish any work that uses the fonts until you purchase a license.

STUDENTS

Students can use the typefaces at a discounted rate by sending an email to hola@albertmolina.es

MODIFICATION OF FONTS

The fonts cannot be decompiled, modified, reverse-engineered, reformatted or converted into different formats.

WARRANTIES

Please contact AM TYPE if the fonts are not working like you expect them to. The fonts are provided as is and might be a work in progress, but AM TYPE will do their best to fix any bugs. If the Licensee or any Licensed User breaches this agreement, then all rights granted by AM TYPE automatically terminate.

AM TYPE is not liable for anything bad that happens involving the fonts or the use of the fonts and will never have to pay for consequential, incidental, or special damages, including any lost profits or lost savings. If for some reason an authority like a court or governing body with jurisdiction decides AM TYPE is liable, then their liability will never be more than the license fee received.
